

Kanine Korner

By Francis X. Lohmann

Speed demon! Maybe we would feel better if we could imagine that you were a doctor rushing somewhere to deliver a baby or ease somebody's pain.

But even though all we saw of you was your car's black shadow and its jumping tail lights as you roared down the street, we know too much to believe it.

You saw the dog, you felt a thump, you heard a yelp and then my wife's scream. You jumped on the gas and got out of there fast.

YOU DIDN'T bother to look, so I'll tell you what the thump and yelp were. They were Chico, our pet Poodle, grey with white markings. We had raised him from a baby

YOUR PUP is a natural born "ham." He loves to romp and play in a good sized yard. This exercise is fine, but long walks are necessary to help develop a keen mind and make him pedestrian and traffic conscious. Always walk your dog on a leash.

His toys will serve a twofold purpose. First, the teeth are exercised and he is not so likely to chew your piano legs or your good carpet. Hard rubber toys are best. I could unhesitatingly recommend the Original Dog Chew Stick, available at any pet shop, for that favorite dog of yours. Original Dog Chew Sticks are even endorsed by veterinarians. One more important thought to keep in mind in regards to the rearing of your puppy — give him lots of love!

I hope that when you hit my dog you had for a moment the sick, lead feeling in the throat and down to the stomach that we have known ever since. And that you feel it whenever you think about speeding down the street again. But you'll probably speed again and kill another dog and break the heart of another family.

Your kind never learns!

for the best banner cheering during the season. At last year's Banner Day, Homer, who has been retired and has been a family pet for two years was brought to the field and received a tremendous ovation. The radio and TV announcer said that, although he has been retired for two years, Homer, the Beagle, still gets fan mail. How about that? . . .

There's no holding down this lassie! Linda Weichel now bylines the Puli column for Kennel Review Magazine. Linda is most active in the Puli breed and one day soon will AKC file for a professional dog handler's license. . . . Mark Twain once said: "If you pick up a starving dog and make him prosperous he will not bite you. This is the principle difference between a dog and a man. . . ."

THE LONDON Times recently wrote "When cruelties to animal have disappeared from the face of the earth, cruelty to man will have disappeared along with it." Won-

derful folks like those at Mercy Crusade are working day and night, and unsalaried, to hasten this day of final freedom from torturous pain. Your dog and mine become safer with each passing day due to the untiring efforts of Mercy Crusade. They need your membership and moral and financial support. Address Mercy Crusade at P. O. Box 3265, Van Nuys, Calif. . . .

Did you know your dog should have 32 teeth—20 in the upper jaw and 22 in the lower. . . . Art Linkletter is an avid Yorkshire Terrier fan. Gov. George Wallace goes for the Collie, and Jack Palance favors the German Shepherd. . . .

BREED OF THE WEEK — Smooth Fox Terrier. . . . There are two varieties of Fox Terrier — Smooth and Wire-Haired. The Wire is generally conceded to have existed as a definite breed for a longer period of time but on the other paw the Smooth was the first to appear at dog shows. Most Smooth Fox Terrier ex-

perts agree the breed is the result of crossbreeding the Bull Terrier, the Beagle, the Greyhound and the old-fashioned smooth coated Black and Tan Terrier. Quite a family tree, indeed! Many, many years ago the Fox Terrier was classified as a sporting breed due to this association with fox hunting.

About 1865, shortly after his acceptance by the English Kennel Club, the Smooth Fox Terrier became extremely popular as a house pet and a show dog. No other pure-bred dog is more widely distributed than the smoothie for he is found just about every place on earth where the English language is spoken.

THE SMOOTH Fox Terrier is keenly intelligent, fast to learn and grasp breed of dog. Many of these little canine guys and dolls have been used as stage and circus performers. Years ago, the older type Smooth received international publicity posing and listening to "His Master's Voice," the trademark of RCA Victor products.

The well bred Smooth of today is a soundly built, free moving dog of eye-catching appearance with a comparable temperament. The Smooth Fox Terrier tips the scales at about 17 pounds and in height 15 inches. Eleanor Gilbert capably bylines a monthly column devoted to Fox Terriers — for Popular Dogs Magazine.

Science Shrinks Painful Hemorrhoids Stops Itch—Relieves Pain Finds Way That Both Relieves Pain and Shrinks Piles In Most Cases

New York, N.Y. (Special): Science discovered a medication with the ability, in most cases—to actually shrink hemorrhoids and promptly stop the burning itch and relieve pain. In one hemorrhoid case after another, very striking improvement was reported and verified by doctors' observations. Pain and itching were promptly relieved. Then this medication starts right in to gently reduce the swelling of inflamed, irritated piles. Tests conducted on hundreds of patients by leading doctors in New York City, in Washington, D.C. and at a Midwest Medical Center proved this so. And it was all done without narcotics or stinging astringents of any kind. The secret is Preparation H® — an exclusive formula for the treatment of hemorrhoids. There is no other formula like it! Preparation H also lubricates to make bowel movements less painful, it soothes irritated tissues and helps prevent further infection. Preparation H comes in both ointment or suppository form. No prescription is needed.
